

What to do with my retirement savings

Retirement claim form includes In-Fund Living Annuity option

Why do I need to complete this form?

Because you are retiring from your employer, you need to tell Alexander Forbes what to do with your retirement savings. It is important that you understand your options and make the right decision for you and your financial well-being.

Name of fund

What are my options?

1 Keep your savings where they are

- Your money will stay invested in the same portfolios, which is known as the default option.

How does this benefit me?

- It is the easiest process.
- You can change your decision or investment option later.
- You will not be taxed on this option.
- You will not receive a monthly income.
- Please attach a certified copy of your ID/passport and proof of residence

2 Transfer

- Move your money out of your employer fund, with an option to take a small cash portion or transfer all your savings.
- This option can allow you to buy a monthly pension.

How does this benefit me?

- Your transfer amount will be invested in a fund of your choice.
- You can add any other retirement savings you have to keep them all in one place.

3 Withdraw all your savings

- Take your retirement savings in cash.

How does this benefit me?

Provident fund

- Older than 55 on 1 March 2021?** This means you can withdraw part or all of your retirement savings in cash.
- Younger than 55 on 1 March 2021?** This means you can withdraw part or all of your retirement savings accumulated before 1 March 2021 in cash. Savings accumulated after 1 March 2021 follow the pension fund rules.

Pension fund

- This option is only available if your retirement savings are less than R247 500.

Important: The savings you withdraw may be taxed.

I have received retirement benefit counselling and understand the various options that I may choose and the implications of these options.
